

What is Bowling for Rhinos?

Bowling for Rhinos is a national bowl-a-thon that serves as an avenue for zoo keepers to raise funds & awareness for rhino conservation

Why Save Rhinos?

Rhinos have lived on Earth for over 50 million years, but without our help, they may not survive the next 50. Only 5 species of rhino remain where there were once over 100, and all 5 species- black, white, greater one-horned, Sumatran, & Javan- are endangered. The main threat to rhinos is poaching for the international rhino horn trade.

Since 1990, BFR has raised over

\$6 million

toward rhino conservation

How can you support rhino conservation?

By sponsoring a bowler at GBAAZK's Bowling for Rhinos event, you can help support conservation efforts of all 5 endangered rhino species in their native habitats of Kenya, Indonesia, and India. The Lewa Wildlife Conservancy, International Rhino Foundation, and Action for Cheetahs in Kenya are being helped to save not just rhinos, but all of the plant and animal species in the rhino's environment- from orchids to elephants!

All donations are tax deductible through the Greater Baltimore AAZK chapter's 501c3 status.

100% of funds raised go directly toward in situ conservation projects which strive to protect rhinos, their habitats, and hundreds of other endangered plants & animals!

How can my donation help rhinos?

\$20 pays for transportation and generator fuel for a school video presentation about cheetah conservation

\$50 is enough for a fingerprint kit that will help bring poachers to justice

\$75 gift helps care for and feed a rhino at the Sumatran Rhino Sanctuary for 5 days
